

Quick Reference Guide

Basic Examples

Enter linear dimensions just as you say them:

6 Feet 3 Inch 5 1/8 6 FEET 3-5/8 INCH

Press unit key twice for square units:

7 Feet Feet 7 SQ FEET

Press unit key three times for cubic units:

25 Feet Feet Feet 25 CU FEET

Key Definitions

Conv converts displayed value into selected material and accesses secondary functions.

Conv **x** returns stored values to defaults.

Stor use to store these material values:
Paint Coverage, Roll Size, Grout Width,
Board o.c., Post o.c., Studs, Roof Bundle,
Custom Tile, Concrete, Block, Gravel, Mulch.

Stor **Mem** stores values into Memory.

Rcl recalls stored or default values.

Deck uses value stored in Board o.c. (actual board width plus space between boards).

Fence uses stored values in Board o.c. and Post o.c. to calculate fence materials.
